FAMILIES OF KINDERGARTEN GOLD

Dear Parents and Carers,

Unfortunately, Caroline Tanti had an accident at her home last Wednesday evening resulting in a serious cut finger. The injury was severe enough to warrant surgery which happened on Friday afternoon.

Caroline's treating specialist has recommended two weeks leave from school. Caroline is sad about not being here for her students and is very disappointed about not being able to be with her class. Caroline has indicated that she may not require the full two weeks but that will be determined by the specialist.

Michael Washington a regular relief teacher at our school and an experienced teacher will be teaching KG this week. It was fortunate that Michael was available for the full week. I know that the Kindergarten Teaching Team will ensure that Michael is well supported in teaching the prepared program.

It is always challenging when teachers are ill and need to be away from school. It is also an opportunity to help our students learn skills to deal with new situations.

Please do not hesitate to contact me if you would like to discuss the arrangements that have been put in place for KG.

I know you join with me in wishing Caroline a speedy recovery.

Yours sincerely,

Claire Frazer
Principal
